

15 April 2014

Dr J Allison  
5 Arthur Street  
DUNEDIN 9016

Dear Dr Allison

It has been reported to me that you were on our AgResearch Invermay campus on the afternoon of 2 April, with a camera crew, without seeking prior authorisation or following our visitor procedures.

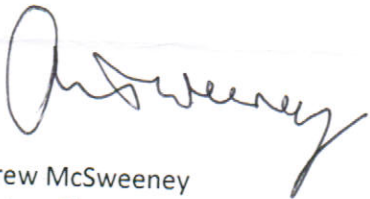

As a former Invermay employee, I am sure you would be well aware of the protocols regarding visitors to the science campus, which I am informed by local management, were not followed.

As you should know we take security and the well-being of our staff very seriously at all times and we require all visitors to observe our visiting requirements and protocols.

Turning up without authorisation, and being involved in filming on AgResearch property, is not acceptable and should you wish to visit our campus again, I ask that you contact me in the first instance for authorisation.

Please let me know if you have any questions relating to the above.

Yours faithfully

Andrew McSweeney  
Director- Shared Services
